About Nancy Rynes

Nancy is a leading voice for personalizing the wisdom of Near Death Experiences (NDEs), developing our heart-centered intuition, and living a life of inspired creativity. Known for her fun, lighthearted, girl-next-door demeanor, Nancy teaches others how to live a more purposeful, joyful, and Heaven-inspired life.

As a scientist and corporate trainer, for over two decades Nancy aligned herself with the skepticism prevalent in so much of the scientific community. She remained an atheist until her life-changing bicycling accident and near-death experience (NDE). Now, Nancy is an avid spiritual seeker as well as practitioner of compassion, kindness, contemplative prayer, and being the change we wish to see. Drawing on Heaven's transformational wisdom learned during her own NDE, she integrates the teachings of love, compassion, kindness, gratitude, and joy that form the foundation for a contented, meaningful life.

Nancy's book *Awakenings from the Light* dives into these and other topics, giving the reader concrete examples of how to make Heaven's wisdom a very real part of life on Earth. She has been a featured speaker at the IANDS Annual Conference, the "Shifting Your Reality" Conference, and with Eben Alexander at The Vail Symposium.
